CHAPTER –II

CREDIT SYSTEM AND GRADE POINT EVALUATION

A. CREDIT SYSTEM:

Each course of a program shall be assigned some integer numerical value termed as credit, which is indicative of relative weightage of such course. The following procedure shall be adopted to assign number of credits to each course:

- 1) One hour of lecture per week shall be assigned one credit.
- 2) One hour of Tutorial per week shall be assigned one credit.
- 3) One hour of laboratory work per week shall be assigned half credit.
- 4) One hour of other practical work e.g. industrial/field training, seminar/dissertation, internships, project report including viva-voce shall be assigned 1/3 credit depending on the quantum of work required to be performed assigned by the concerned Board of Studies.
- 5) In every semester of Diploma/ UG/ PG program except last semester, one credit shall be assigned for General Proficiency and Discipline termed as GP.
- 6) In case the total number of credits for a course is fractional, it shall be raised to next integer.
- 7) The credits assigned to a course in which a student has obtained pass grade or higher will be counted as credits earned by him/ her. A letter grade, corresponding to specified number of grade points, is awarded in each course for which a student is registered. On obtaining the pass grade, the student accumulates the course credits as earned credits.

B. CHOICE BASED CREDIT SYSTEM (CBCS):

1) PREAMBLE:

Present day Employers expect students to have multi-disciplinary competency, leadership skills and be Information and Communication Technology (ICT) ready. The rigid system of teaching and learning in many institutions offers little flexibility to students in selecting the courses of their choice and helps little in becoming a well-rounded personality.

As part of its objective of providing quality education and making the graduates employable, the University is taking a step in this direction by introducing the Choice Based Credit System (CBCS) and implementing the recommendations of National Education Policy -2020 into its academic curriculum.

2) FACULTY MENTOR:

Upon joining the University, each student will be assigned a Faculty Mentor, who will act as a guide and advisor for the entire duration of the program. The Faculty Mentor will discuss with the student his academic performance and suggest the number and nature of courses the student should register during the ensuing semester,

within the framework of that Program curriculum. The Faculty Mentor may advise students having many backlog courses to register for lesser number of credits (subject to the minimum credits specifications) and prepare a revised plan of study for the student with a slower pace.

3) COURSE DISTRIBUTION:

The curriculum of each Program contains courses that are grouped into Core (C), Core Elective (CE), Open Elective (OE), Skill Enhancement (SE) and General Proficiency (GP).

(i) Core (C):

Courses listed under Core are fundamental in nature and are expected to enhance student's knowledge in the chosen discipline. Core courses may be added or removed from time to time. Core courses will be listed by specific course code and course title. The total number of credits from the Core Group to be earned shall vary from program to program.

(ii) Core Elective (CE):

By opting Core Elective courses, students get an opportunity to study courses which are more advanced or applied or specialized than the fundamental courses he/ she studies as part of core courses listed under the curriculum. These courses will generally provide an in-depth knowledge of a specific sub- field the student has chosen as his/ her specialization. In program, where the University offers honors, the Core Elective Courses will be kept in separate baskets. If a student completes all the required number of CE courses from one basket, he/ she will be awarded degree with honors/ specialization in that area. Project Work, Internship and seminar are partial requirement for successful completion of a Program as per curriculum. The students can choose Projects, Internships, seminars in the domain based on their specialization or as per their Individual Career Path. The Faculty Mentor will guide him/ her in choosing the CE courses.

(iii) Open Elective (OE):

Open Electives are generally Courses that a student chooses from courses being offered by other departments/ Schools at University level. A course declared as Open Elective for one Program, may be declared as Core/Core Elective for any other Program. This gives an opportunity for students to satisfy their interest in other disciplines and also follow their passions. Since OE courses offered by a particular School or University level are expected to be taken by other discipline students, they may not have a prerequisite. The total number of open electives at UG level shall be fixed.

(iv) Skill Enhancement Courses (SE):

Besides the Open and Core Courses, every student is required to take up **skill enhancement courses** during the entire duration of the program as prescribed in the course structure for that program. These courses are believed to improve the required professional and employability skills among the students, and will be Credit Courses in nature. The grades earned by the student will be included in the calculation of SGPA/

Asst. Registrar
Registrar
Geeta University, Poonah

CGPA. If a student fails to obtain a Pass Grade in SE program then student shall have to give a supplementary exam whenever it takes place.

(v) General Proficiency (GP):

In every program (UG as well as PG) of the University, in each semester, except in the final semester, a course GP of one credit shall be prescribed. The GP marks to the students shall be awarded as prescribed from time to time.

For indiscipline the marks may be suitably deducted from the marks awarded in GP. It is clarified that (i) GP course shall remain of 1 credit as such, (ii) grade obtained in this course shall be considered during calculation of **SGPA/CGPA** but (iii) passing in this course shall not be compulsory for **Award of Degree** and (iv) improvement of grade obtained in this course shall not be permissible.

(vi) Self-Study Courses / Swayam Courses:

As per new Education Policy NEP-2020 and UGC guidelines, Geeta University shall permit students to complete some of their credits through the Swayam mode. MOOCs provide an easy and flexible way to learn new skills, advance careers and deliver high quality courses to the students, which might not have been available to the students. These Courses will be vetted by the respective head of department for replacing the core courses and additional courses may be considered to offer the core elective categories as per availability of the courses. The departments shall on the approval of the Vice Chancellor publish a list of such courses, which would be recognized by Geeta University as credit courses. Only those courses shall be considered for earning of credits. The students would be required to complete the courses in the particular semester in which it is being offered in the University. The method of evaluation for such courses shall be decided by the Dean of the Faculty for the credits and the grade to be awarded.

4) MINIMUM CREDIT REQUIREMENT:

The minimum credit requirement for the completion of the Program and award of Diploma/ UG/ PG degree shall be given in the course structure of that program. Due to various features of CBCS, it is possible for a student to reach the minimum credit requirements without completing the courses under C/CE or without meeting the credit requirements under OE/SE. Under such circumstances, though the student has met the minimum credit requirements, it is mandatory for the student to complete required credits under C, CE, OE and SE to become eligible for the Degree.

5) COURSE EQUIVALENCE:

Regular updating of curriculum and syllabi is essential to reflect the advancement in various fields. CBCS permits a student to register a course again to clear the backlog.

When the student registers a course next time, there could be some modifications carried out in the syllabus of course(s). If the changes effected are marginal, both the syllabi are considered to be equivalent and the student has to undertake the new syllabi currently offered to the first time registrants only. After careful study of syllabi, the University may identify new courses considered equivalent to the courses that were dropped from the curriculum for various reasons. Course equivalence is

applicable to all curricula, present and past. However, the number of credits to be earned cannot be altered. Course equivalence will be distinguished by the **VERSION** of the course. If the course Version is represented by the same numerical digit at unit place, the two courses are equivalent. Slight change in the syllabus will be designated by Course Version, which is having same numerical digit at unit place but different digit at first place after decimal point in the Version of the course. Thus, Course Versions 1.0, 1.1, 1.2 are equivalent courses, and there is only a little change in their syllabi. But course versions 1.0, 2.0, 3.0 are courses having major changes in the syllabus. Major changes in syllabus would mean more than 20% content is revised from the initial version. Therefore major change may be treated as different course for the purpose of ESE paper setting and evaluation.

C. BOARD OF FACULTY:

Each Faculty will have its Board of Faculty, the constitution of which shall be as follows;

- (i) Dean of Faculty (Chair Person)
- (ii) Heads of Schools
- (iii) All Professors of the schools; if there is no Professor in the School, two senior most faculties shall be members of the board.
- (iv) Any expert(s) nominated by the Vice-Chancellor, if and when required.

The Board of Faculty will deliberate upon all matters related with teaching, research and consultancy services including the recommendations of the BOS for approval by Academic Council.

The Board of Faculty shall meet as and when required but at least twice in an academic year.

D. BOARD OF STUDIES:

Each School will have its Board of Studies for each school-wise/ department-wise, the constitution of which shall be as follows;

- (i) Head of the School/ Department (Chairperson)
- (ii) All Professors of the department (if there is no Professor in the Department, two senior most faculties), two Associate Professors and one Assistant Professor will be members of the board
- (iii) Two experts from another University or Industry nominated by the Vice-Chancellor

The BOS will look into the matter related to the syllabus of all Programs being run by the department and will also coordinate the need for improvement and modification of the syllabus and other needs to strengthen the department.

The Board of Faculty/ Board of Studies shall be approved by the Vice Chancellor and have tenure of three years. The board shall meet as and when but at least twice in an academic year.

CHAPTER – III

- a) The marks of both the components of evaluation for a course shall be added to get total marks out of 100. The rounding off shall be done on the higher side.
- b) For less than 30 students in a course, the grades shall be awarded on the basis of **Percentage** in the absolute marks, as in Table – 1.
- c) For 30 or more than 30 students in a course statistical method shall be used for the award of grades. The salient features of the statistical method are given in

Table – 2.

d) The evaluation of theoretical/ Practical courses shall be done under two categories viz. Continuous Internal Evaluation (CIE) having weight-age of 50% and End Semester Exam (ESE) having weight-age of 50% (unless some other weight-age specified by respective regulatory body) specified by in the manner given below.

 - b) The number of students getting higher grades A or A⁺ and lower grades C or D should be in the descending order on both sides.

 Registrar
 Geeta University, Panipat

- (iv) If statistical method is adopted and it is giving absurd results i.e. the value of $(X+1.5\sigma)$ is more than 100 or the value of $(X - 1.5\sigma)$ is negative, then these values may be adjusted so as to satisfy above conditions (i) to (iii).
- (v) The highest grade that will be provided to students appearing in Summer Semester Examination shall be capped to B+. A and A+ grades will not be given in Summer Semester Examination.

The result of each student for each semester shall be worked out and provided in terms of Grades for each course, the semester grade point average of a student shall be calculated on the basis of the number of credits (C_i) assigned to ith course and grade points (P_i) earned in ith course (based on overall grade obtained) of that semester by the following formula:

(a) SGPA calculation: -

$$SGPA = \frac{\sum (Credits) \times (Grade Point)}{\sum (Credits of a semester)} \quad SGPA = \frac{\sum C_i G_i}{\sum C_i}$$

(b) Cumulative grade point average (CGPA)

$$CGPA = \frac{\sum (SGPA) \times (Credits in a semester)}{\sum (Total Credits of all semesters)}$$

where C_i is credit assigned to particular case

G_i is graded point earned in a particular case

Registrar
Geeta University, Panipat

The CGPA shall be calculated by the same formula used for calculation of SGPA but now C_i will be the number of credits of the i^{th} course, upto the semester for which CGPA is to be obtained and p_i is the Grade Point earned in i^{th} course.
